Welcome

Marseille, a city that is proud, a city that is of the people, and a city that is truly Olympic. After welcoming the world for the arrival of the Olympic flame on May 8 and 9, our city is getting ready to open its arms once again to welcome visitors for what promises to be an extraordinary summer. By hosting the sailing events, we'll be showcasing our coastline and sharing it with all those who are passionate about water sports. As for the football matches, they will be an opportunity to bring our legendary Vélodrome stadium to life to the rhythm of the Olympic spirit and its universal values. We are proud to have made Marseille one of the great centres for the Olympic and Paralympic Games in France. We've worked hard to ensure we rise to the challenge of once again hosting a major global event, just as we did last year for the visit of Pope Francis and earlier this year with the historic tour de force we organised to welcome the Olympic flame in May. The Olympic Games will be an opportunity for Marseille. An opportunity to get together, to meet new people, and to enjoy an exceptional summer. The vibrant, shared energy of our city will be at its very best, and we've designed an Olympic programme that blends perfectly with Marseille's summer cultural programme – a wide-ranging, festive, and free summer programme – so that every day is a new adventure. You'll find all the details in this guide.

Benoît Payan

Benoît PAYAN
Mayor of Marseille

Marseille will once again be the centre of the world's attention. Although the opening ceremony of the 2024 Olympic Games will take place on July 26 in Paris, it's in Marseille that the events of this 33rd Olympiad will officially begin! On May 8, Marseille dazzled the world with its spectacular welcome of the Olympic flame to France, and starting on July 24, Marseille will once again be making history. For the time of the Olympic sailing events, Marseille will offer hundreds of millions of viewers its finest jewel: its coastline, the most beautiful in the world. While we are proud to welcome the world's top sailors to our city, we are above all delighted to offer the people of Marseille a unique competition that they will all be able to watch and savour. As a balcony overlooking the sea, the magnificent Corniche coastal road will provide the best possible vantage point to enjoy the fabulous choreography of sailing vessels. Together with the Mayor of Marseille, Benoît Payan, we have chosen to make the nautical centre an open, environmentally friendly facility. As soon as the Olympic events are over, the venue will become an open marina, where residents, associations and sailing professionals will be able to enjoy water sports in a truly unique setting. And that's not all! Marseille is also hosting ten matches of the men's and women's Olympic football tournaments, including two French team matches, two quarterfinals, and two semifinals. All the conditions are in place to make this a historic two weeks for Marseille and for our country. After four years of hard work, we're finally there! Together, we will once again make Marseille shine in the eyes of the world.

Samia GHALI
Deputy Mayor for Major Events
for the City of Marseille

EXHIBITIONS IN THE EPHEMERAL GARDEN

Sportilège Christian Rizk & Julie Audic

The exhibition features 40 works that were created with an innovative intensive photography approach that resembles painting. The athlete photographed with this technique is no longer identifiable by nationality, gender, or skin colour; these details fade away with the shutter speed, and the notion of competition gives way to gestures and momentum.

#JESUISLÉGITIME Sport & the people of Marseille

This photography exhibition showcases portraits of sportswomen, allowing them to share their stories and reveal how they built their careers.

Free entry.

CULTURAL OLYMPIAD
